## Amy Pierce

### Family

Father Alan and mother Angela.

She is the middle of three sisters. Her older sister Georgina is 33 and her younger sister Helena is 24.

She is not married. A previous long term relationship broke up a few years ago.

### Work

Works for the NHS Ambulance Service as a Paramedic and Driver.

### Strange Event

Something odd happened to her recently. She was dealing with a patient called Ellen Bancroft. She had been attacked in some way and was in a very bad state and died. However, Ellen seemed to be wanting to tell her something and give her something. Amy was reluctant to take anything from a patient, but in the end decided to. It was a little necklace with a strange stick man on it – a figure she later found out was the Indalo. 𐄂

Amy found herself strangely drawn to Ellen and apparently neglected to give her proper treatment, instead trying to listen to what she said. It was something about a Watcher and Wickhirst. She was not entirely sure what she was being told, but it was important as it turned out to be Ellen's last words.

This apparent neglect caused Amy to get into trouble, and she was suspected from duty.

Ever since then, Amy has been having bad dreams and keeps feeling someone is talking to her and possibly even watching her. She has occasionally felt there is an unusual presence in the house. It has frightened her and she is looking for answers.

### Current Situation

Since her incident, she has been suspended on full pay, pending an outcome of the enquiry. As this is a government thing, it is taking some time. In the meantime, she has taken it on herself to try to find out more about what is happened to her.
